10. [CORDIS Contacts](#): individuals and organisations providing information, assistance and advice

The Seventh Framework Programme (FP7)

FP7 is the short name for the Seventh Framework Programme for Research and Technological Development. **FP7 is the EU's main instrument for funding research in Europe** and it will run **from 2007 to 2013**. FP7 is also designed to respond to Europe's employment needs and competitiveness. FP7 supports research in selected priority areas - the aim being to make, or keep, the EU as a world leader in those sectors. FP7 is made up of 4 specific programmes: **Cooperation**, **Ideas**, **People**, **Capacities**, plus a fifth specific programme on nuclear research.

COOPERATION

Under the programme “**Cooperation**”, research support will be provided to international cooperation projects across the European Union and beyond. In 10 thematic areas, corresponding to major fields in science and research, the programme will promote the progress of knowledge and technology. Research will be supported and strengthened to address European social, economic, environmental, public health and industrial challenges, serve the public good and support developing countries.

Specific programme « **Cooperation** » on [CORDIS](#) & [EUROPA](#)

“**Cooperation**” supports research actions in the following thematic areas:

Thematic areas	CORDIS	EUROPA
Health	CORDIS	EUROPA EUROPA
Food, agriculture and biotechnology	CORDIS	EU-AgriNet Biosociety
Information and communication Technologies	CORDIS ICT	EUROPA Information Society
Nanosciences, nanotechnologies, matériaux and new production technologies	CORDIS Nanotechnologies	EUROPA Nanotechnology
Energy	CORDIS Energy	EUROPA Site Energy Energy & Transports
Environment (including climatic change)	CORDIS Environment	EUROPA Environment Water initiative
Transports (including Aeronautics)	CORDIS	EUROPA Transport Energy & Transports
Socio-economic sciences and Humanities	CORDIS	EUROPA SSH
Space	CORDIS	EUROPA Space
Security	CORDIS	EUROPA Security research

IDEAS

The “**Ideas**” programme hosts all those activities that are to be implemented by the **European Research Council** (ERC). The ERC is expected to enjoy a high degree of autonomy in order to develop high-level frontier research at a European level, building on excellence in Europe and raising its profile at the international level.

This programme will enhance the dynamic character, creativity and excellence of European research at **frontier knowledge**.

PEOPLE

The “**People**” programme offers individuals the opportunity to follow a career in research. European researchers should be encouraged to stay in Europe whilst at the same time the best researchers in the world should be attracted by European research excellence and infrastructures.

Building on the positive experiences with the “**Marie Curie Actions**”, the “People” programme should encourage individuals to enter the profession of researcher; structure their research training by offering options; and, encourage mobility within the same sector. The mobility of researchers is not only key to the career development of researchers but also vital to the sharing and transfer of knowledge between countries and sectors.

CAPACITIES

The “**Capacities**” programme aims to optimise the use and development of research infrastructures, while enhancing the innovative capacities of SMEs to benefit from research. The programme is designed to support regional research-driven clusters and at the same time unlock the research potential in the EU’s convergence and outermost regions. Support is to be provided for horizontal actions and measures underlining international cooperation. Finally, European society and science should be brought closer under the initiatives of the “Capacities” programme.

Specific programme « **Capacities** » on [CORDIS](#) & [EUROPA](#)

“**Capacities**” will operate in seven broad areas:

Thematic areas	CORDIS	EUROPA
Research infrastructures	CORDIS	EUROPA
Research for the benefit of SMEs	CORDIS	EUROPA Portail PME
Regions of knowledge	CORDIS	EUROPA
Research potential	CORDIS	EUROPA
Science in Society	CORDIS	EUROPA Science & Society portal
Support to the coherent development of research policies	CORDIS	EUROPA
International co-operation	CORDIS INCO Portal	EUROPA INCO service

Writing labs

Several **Writing resources** are available on the web, such as:
