

FP7 - Capacities Programme - International Cooperation Activities

Information on available budget

The Commission adopts its budget on an annual basis. Therefore, that part of the budget relating to 2007 has been provisionally agreed, and is subject to confirmation in January 2007 once the specific programme comes into force. That part of the budget relating to 2008 will only become valid once the Commission has adopted the preliminary draft budget (PDB) for 2008 and the Commission has, in addition, confirmed the amounts in the work programme for that year. Amendments of the budget of on-going calls to specifically add contributions from the 2008 budget will be announced in the Official Journal.

Within this context, the following table provides a full overview of planned indicative budgets for the International Cooperation activities of the Capacities Programme 2007-2008, as is intended to be confirmed in April 2007:
